

Quality Policy

EdisonLearning Limited (the 'Company') is committed to the design and provision of Educational Partnering and Consultancy Services and resources that comply with criteria as agreed with customers on an individual contract basis. We are also committed to compliance with our own design specifications and any applicable legal requirements. These are considered to be the company's principal quality objectives which are supported by planned objectives for Individual Contracts, analysis of Customer Satisfaction, in the form of direct feedback from schools, and strategic planning, based on these results to facilitate continuous improvement of the Company's QMS.

To this end the Company operates a quality management system to meet the requirements of ISO 9001:2015. This is implemented in all areas and functions that have an effect on quality of the services provided and will be monitored both internally and by an independent accredited Certification Body. Whenever appropriate the system will be updated to improve its effectiveness in achieving the quality objectives.

This policy and the performance of the QMS as a whole are subject to annual review to ensure they remain appropriate and effective, and to reconsider quality objectives that may arise as both the business, and the educational environment evolve.

Jerry Baker
Managing Director

To be reviewed annually (within the management review)
